## Health Concerns , When to Keep Your Child at Home

With Cold and flu season upon us, just a friendly reminder from our Student Parent Handbook on when a child should stay home. Students and families may not be sure if a child is too sick to attend school. Ordinarily we ask that children be sent to school even if they seem a little tired or irritable in the morning as long as they do not have any of the signs or symptoms listed below:

- Child is too ill to participate in normal school activities
- Child has a temperature greater than 100 degrees Fahrenheit **should stay home until the temperature has been normal for 24 hours without the aid of medication**
- Child has vomited in the last 24 hours or is unable to tolerate normal food and drink should stay home until the vomiting has stopped for at least 24 hours
- Child with diarrhea should stay home until the diarrhea has stopped for at least 24 hours

### Prayer for the Helpless Unborn

*Heavenly Father, in your love for us, protect against the wickedness of the devil, those helpless little ones to whom You have given the gift of life.*

*Touch with pity the hearts of those women pregnant in our world today who are not thinking of motherhood.*

*Help them to see that child they carry is made in Your image, as well as theirs, made for eternal life.*

*Dispel their fear and selfishness and give them true womanly hearts to love their babies and give them birth and all the needed care that a mother alone can give.*

*We ask this through Jesus Christ, Your Son, Our Lord. Amen.*
